About Me

I am a dedicated and enthusiastic BCA first-year student with a strong passion for software development, artificial intelligence, machine learning, and web technologies. Currently, I am learning Java and enhancing my knowledge of Python while building small projects to strengthen my problem-solving skills.

Despite having no prior industry experience, I am highly motivated to learn and grow in a professional environment. I enjoy exploring new technologies and applying my theoretical knowledge to real-world applications. My goal is to secure an internship where I can gain hands-on experience, contribute meaningfully to projects, and refine my technical expertise.

Skills

Technical Skills

- **Programming Languages:** C, Java (Learning), Python (Basic)
- **Web Development:** HTML, CSS
- **Database Management:** SQL
- **Other Skills:** API Integration, Git & GitHub (Basic), Problem-Solving

Soft Skills

- Quick Learner
- Strong Analytical Thinking
- Adaptability
- Teamwork & Collaboration
- Attention to Detail

Projects

◆ Personal Portfolio Website [Link](#)

- *Technologies Used:* HTML, CSS, JavaScript
- A responsive portfolio website showcasing my skills, projects, and contact details with an interactive UI.

◆ AI Background [Link](#)

- *Technologies Used:* Python, Hugging Face API
- A tool that removes image backgrounds using AI, providing a user-friendly interface similar to professional background removal tools.

Education

Bachelor of Computer Applications (BCA)

Maharishi University of Information Technology

[2024] – Present

Higher Secondary Education (12th - PCM)

Pandit Deendayal Upadhyaya Saraswati Vidya Mandir Inter College

[2024]

Subjects: Physics, Chemistry, Mathematics

Secondary Education (10th)

Pandit Deendayal Upadhyaya Saraswati Vidya Mandir Inter College

[2022]

Subjects: Computer Science, Mathematics

Language

- Hindi (Native)
- English (Intermediate ,Good Understanding)
